

Consolidated Business Services (CBS) has an opening for a full time **Product Manager**.

CBS provides efficient and economical outsourced partnerships for telecommunications operations, to create a shared resource model that is more cost effective.

**The primary purpose of the Product Manager is:** Responsible for defining and implementing the product vision, roadmap and requirements of Internet, streaming media and/or Voice/VoIP products based on a solid understanding of the markets, customers, competitors, and future trends.

#### **Essential Duties:**

- Participate in a cross-functional, multi-department team to develop and manage assigned internet, voice, and additional product offerings through the complete product life cycle.
- Define market requirements based on analysis of market, competition, users, and technology.
- Execute product strategy and roadmap while managing constraints relating to multi-location deployments, resource availability, and varied infrastructure platforms.
- Understand customer needs and use of company services across multiple delivery platforms and operating systems including; Windows, macOS, streaming media devices, iOS, Android, Fire OS and ROKU.
- Work with the marketing team to formulate strategies for product positioning and coordinate industry co-branded marketing opportunities.
- Assist in the management of external business relationships pertaining to assigned product lines.
- Communicate constantly with stakeholders to set and continually manage expectations while fostering a positive and collaborative culture.
- Represent assigned product lines to both internal and external audiences via written and verbal communications including, but not limited to product documentation, presentations, live training, instructional videos and more.
- Prepare regular product reports for assigned product lines.
- Evaluate new technologies to pursue in future product development.
- Performs other job duties and responsibilities a required to fulfill job functions or as assigned.

#### **Job Requirements:**

- Bachelor's degree in marketing or business. Associates Degree plus three years of experience in product management may be substituted for a four-year degree.
- Three to five years of technical product management/marketing experience required. Proven experience managing vendor relationships. Must have strong analytical, organization and strategic planning experience.
- Must be multi-tasked oriented. Demonstrated ability to work from oral and written instructions and make decisions under limited supervision.
- Strong knowledge of marketing and product management concepts. Understanding of product life cycle.
- Ability to understand, evaluate and provide recommendations regarding operating agreements, licensing, and other legal documentation.
- Knowledge of IP-based products, consumer services and streaming media offerings preferred.
